HIGH SCHOOLERS
MEET ST. JOHNS

CLINTON COUNTY FIVE HAS
HIGH HOPES OF DEFEATING
ALMA'S VETERANS.

The veteran Alma High School basketball cagers will open the 1922 court season Friday evening, when they meet the strong St. Johns five on the local court in what promises to be a fast battle.

The St. Johns quintet is reported to be an unusually strong one, and it has high hopes of wrecking the chances of the local aggregation right at the start of the season. The Clinton county five has been working out all during the holidays and with a good week's work this week will be in fine shape for the fray.

The Alma team which will take the floor against the visitors Friday evening at the high school gymnasium should be one of the strongest that the Orange and Black has had in years. Five veterans, Elias, Anderson, Garner, Atkinson and Sartor, are available to start the fray, and in addition to the old men Coach Mullin has some new material that is beginning to show real promise and some of these men may get a chance to show under fire. Among the new men who are looking especially good are Wyant, Kenneth Holmes, Tripp and Bartling.

The new suits for the high schoolers have arrived and will be used in the first fray. The suits are of orange trimmed with black, and are somewhat out of the ordinary. With the suits of orange, against the darker colored background in the various gymnasiums in which the locals will play, the Almates will have an advantage in passing as the orange colored suits can be taken in at a swift glance and passing put under way much more quickly than would be the case if the suits were black.

SOUTHVIEW ELECTIONS

The Southview Land Company, owners of Southview subdivision, at its annual meeting elected the following directors: Dr. F. J. Graham, John Luchini, J. C. Chick, Ben Berman, L. L. Kuhn, S. L. Bennett and Jack Robinson. The directors elected the following officers, following the meeting of the stockholders: President, F. J. Graham; vice pres., John Luchini; secretary, S. L. Bennett; treasurer, J. C. Chick.

Alma Chapter No. 43, O. E. S. will hold its regular meeting Friday evening at 7:30.

What Every Woman
Wants to KnowUNDERWEIGHT AND
OVERWEIGHT CHILDREN

Both overweight and underweight children offer special nutritional problems. Both are abnormal, being subject to disease and to general retarded mental development. Mothers should study their children, decide upon individual condition, and then plan meals to conform to proper corrective diet.

The Christmas season with its accompaniment of holiday candies and highly seasoned foods; the New Year and its suggestion of new regimes and good resolutions,—both, as our French neighbors say, "give one to think."

The result of over indulgence in sweets and rich food is seldom so apparent as at this time of the year when, very lively, the child cannot get out of doors to work off the effects of over-eating. With the New Year, why not resolve to put that child, or those children upon a steady diet, combined with steady hours?

The supply of food should be generous in amount; if insufficient the body itself is "burned" to provide energy, and loss of weight results; if too much, the body refuses to function properly, more food being retained than is "burned up." In either case the situation is serious, retarded mental development being the most noticeable result. The underweight child is, in addition, open to the ravages of tuberculosis; the overweight child, to pneumonia and infantile paralysis.

Cut out the rich foods from the diet of the overweight child; add them, together with at least a quart of milk a day, to the diet of the underweight child; and for both insist upon regular meals and regular sleep. Give their bodies a chance and their brains will take the chance.

The striking difference between well-nourished and malnourished children will be shown graphically in the nutrition clinic which will be held at the Michigan Agricultural College during Farmers' Week this winter.

COLLEGE QUINTET
GETS EVEN BREAK

ROAD TRIP TO DETROIT AND MT.
CLEMENS SEES AGGREGA-
TION IMPROVE GREATLY.

On its four day trip through southeastern Michigan last week the Alma College basketball squad got an even break winning two out of the four games that were, scheduled for the Maroon and Cream.

The trip opened Wednesday evening with a fray with the John D. Mabley aggregation of tossers, who were defeated in a hard fought battle by a score of 20 to 11. The Mabley quintet is a professional bunch of cagers and the feat of the locals in downing this Detroit team was no small one.

Thursday evening the Alma aggregation was frequently fouled in its game with the Detroit Y. M. H. A. outfit, and with numerous points being counted from the foul mark the Detroiters were able to score a 20 to 10 victory over Campbell's new team. Kirker and Carty, Alma forwards, were held without a field basket in this game, in which Wright featured for Alma.

Friday night at Mt. Clemens Alma trailed the Bath City Boosters during the first half, the session ending with Alma three points in the rear of the boosters. In the second half Alma staged a comeback and made things hot for the Boosters. When the final whistle blew Alma, however, was still one point behind, and lost 25 to 24.

The Detroit College of Law Saturday night did not offer any great resistance to the Alma clan and was beaten with ease. The score was 44 to 12 for Alma.

The first three teams played were more or less professional teams and the showing of the collegians on the four day trip, as a result, was not a bad one. The aggregation got some valuable practice out of the games that promises to make itself felt as the Michigan Intercollegiate games get under way in another week.

BADLY DEFEATED AT M. A. C.
Completely lost on the big floor in the M. A. C. gymnasium, the Alma College basketball team could not get located yesterday in time to give the Michigan Aggies much of a battle and went down to a 43 to 17 defeat, the Farmers accustomed to the big floor playing rings around the Maroon and Cream.

Attention, Ford Owners

Ford parts, like most everything else worth while, are counterfeited. The manufacturers of these imitation parts are obviously not as interested as we are in maintaining the high standard of quality and the complete satisfaction of Ford owners. Imitation parts are manufactured to sell at the highest possible rate of profit and the grades of steel used are consequently not the same high quality, specially heat-treated alloy steels specified in Ford formulas for the manufacture of GENUINE FORD PARTS.

Don't be misled—Insist upon GENUINE FORD PARTS made by the Ford Motor Company. By so doing you will get from 35 to 100 per cent more wear from them, and you will pay the lowest possible cost—the same everywhere.

**50% of Genuine Ford Parts Retail
for Less Than 10c Each.**

ASK FOR PARTS PRICE LIST

When your Ford car, truck or Fordson tractor needs attention call on the following authorized Ford dealer, who is properly equipped, employs competent mechanics; and uses Genuine Ford and Fordson parts in all repair work.
